Scoring

Add up all of the numbers you circled.

- **0 – 29:** It seems your college may just be beginning its work to better support trans, non-binary, and Two Spirit students. But everyone has to start somewhere! The TRANScend Toolkit provides a ton of information that will guide you along the way - from terminology and history to specific initiatives to focus on and how exactly to make those happen. Focus on the next “level” for each initiative, and utilize the examples given. The “About” section and the bottom of each initiative page include some great information about why this work is so important for TNB2 students. Glad you are here!
- **30 – 59:** You are well on your way in best supporting your TNB2 community college students! You provide at least some support in each of the areas listed in the TRANScend Toolkit, and you have expanded support available in some of them. Keep up the great work! The TRANScend Toolkit will help you to determine what to prioritize next based on your level of resources (time, people, funding, and more). The toolkit also includes specific examples and templates. No need to reinvent the wheel...at least not from scratch!
- **60 – 94:** You have a lot of great support already! Give yourself a pat on the back...and then keep on going! There are still plenty of opportunities for you to expand your support, whether that be focusing on the areas that you are still lacking a bit, or by expanding your level 3 supports even further. The TRANScend Toolkit will give you some good ideas and examples that can spark new ideas and give you that push to keep moving forward.
